FROST PROOF CABBAGE PLANTS

READY FOR SHIPMENT SEPTEMBER 15 TO JUNE 15

WE CAN SUPPLY THE FOLLOWING VARIETIES

EARLY JERSEY WAKEFIELD, 63 Days—Best early and extensively used for home and market. Firm pointed heads with few outside leaves.

CHARLESTON WAKEFIELD, 72 Days—Larger and less pointed than Early Jersey, and about ten days later.

GOLDEN ACRE, 63 Days—Earliest round head variety, little smaller than Copenhagen Market and about a week to ten days earlier.

COPENHAGEN MARKET, 72 Days—Early round headed variety, popular in all markets, very firm and of the highest quality.

EARLY ROUND DUTCH, 76 Days—An excellent early cabbage producing firm round heads and much hardier than Copenhagen varieties.

GLORY OF ENKHUIZEN, 80 Days—Attractive medium early, large, round and solid.

EARLY FLAT DUTCH, 83 Days—Sure heading, compact and early. Heads flattened and solid.

MARION MARKET, 73 Days—(Yellow resistant) Copenhagen type—about ten days later than Racine Market.

WISCONSIN ALL SEASON, 84 Days—(Yellow resistant)—One of the hardiest cabbages grown, making large flat heads and is much in demand for making kraut.

OMEGA PLANT FARMS, Omega, Georgia

TO THE TRADE

In sending you this Vegetable Plant Folder, we wish to assure you that we are now in a better position than ever before to supply you all varieties of vegetable plants listed. We wish to thank you very much for your confidence in allowing us to supply your plants for the past season and assure you we will be able to handle your business this year in a satisfactory manner.

You will find there is no increase in our prices, although there has been from ten to twenty per cent increase in our operations and we have been confronted with the same labor situation as other types of business.

Assuring you any business given us will have our personal and careful attention, we are,

Yours very truly,

OMEGA PLANT FARMS

HOW TO ORDER PLANTS

You will find enclosed an order blank for your convenience.

Make remittance by Post Office or Express Money Order or by Check. Make all checks payable to Omega Plant Farms. Write your name and address plainly. Always state how you want shipment made; by Parcel Post or Express, as we do not ship vegetable plants by freight.

What To Do When Plants Arrive

Open immediately and take a few bundles from center of container. If weather conditions are unfavorable for transplanting to fields, place in cool place, keeping roots moist and tops dry, or trench out thinly, keeping plenty of moisture to roots and tops dry.

PEPPER PLANTS

Our Pepper Plants are open field grown but they are not Frost-Proof. We will have these plants ready for shipment during April, May and June.

WORLD BEATER—One of the best of the larger peppers, fruits 5 inches long, 3 inches in diameter. Flesh mild and thick, deep red when ripe. Good shipper and very productive.

RUBY KING—Excellent for home, market, garden and shipping. About as large as World Beater, vigorous grower, very profitable. Deep green becoming bright red, mild sweet thick flesh.

PIMIENTO—A small, mild pepper, glossy green when young, ruby red when ripe, excellent for stuffing and canning.

CALIFORNIA WONDER*—This is a large thick meated sweet pepper which we recommend above all others. Vigorous growing plants making heavy yield of large blocky fruit 5 inches long and 4 inches wide.

LONG RED CAYENNE—This medium early pepper is long, slender pointed, deep green when young and bright red when ripe, strong flesh and pungent.

HUNGARIAN YELLOW WAX—This early variety is larger than other hot peppers producing fruit 6 to 7 inches long and 2 in. in diameter. Excellent for canning. The color is waxy light yellow at first, changing to orange and then to bright red.

EGGPLANT PLANTS

BLACK BEAUTY—Plants grow two to three feet high producing six to eight large egg-shaped fruits. Smooth, dark purple, and hold well after picking.

FLORIDA HIGH BUSH—Earliest high bush type, very prolific, a fine shipper and stands drought and heat better than other varieties.

NEW YORK PURPLE—This is spineless strain, large purple fruit. Very productive and a standard brand.

BROCCOLI PLANTS

CALABRESE OR ITALIAN GREEN SPROUTING—The leading variety used by shippers, markets and home gardeners. Produces a blueish green head at center of plants. When this head is cut many smaller heads appear which are as desirable as the first. Continues to bear until frost.

PRICES ON PEPPER, EGGPLANT AND BROCCOLI

OMEGA PLANT FARMS, Omega, Georgia.

ONION PLANTS

There are two leading varieties of Onion Plants; White Crystal Wax and Yellow Bermuda. These plants come from Tenifree Island Grown Seed and as they are grown in the open fields can stand unusually low temperatures. They are pulled and shipped in bunches of 100 plants each.

CRYSTAL WHITE WAX—A very popular variety, an absolutely pure white onion of waxy appearance. The sweetest and mildest of all Bermuda Onions. There is a good demand for this on account of its handsome appearance.

WHITE OR YELLOW—This is a straw colored variety, exceedingly mild in flavor and very early. A profitable variety for market, gardeners and truckers.

RIVERSIDE SWEET SPANISH—Sparkling white flesh. Mild, sweet, good quality and splendid keepers.

Do not order less than 100 plants of one variety. Smaller amounts at the 100 price.

SPRAYING DIRECTIONS

For leaf eating insects, such as tomato bugs, cabbage worms, spray with calsium arsenic or arsenate of lead, mixed at the rate of 2 lbs to 50 gallons of water.

For sucking insects, such as cabbage aphis, onion thrip, spray with Blackleaf 40 mixed according to directions on container.

For fungous and bacterial diseases, such as tomato blight, bacterial leaf spot, spray every 10 days with bordeaux mixture, or Tri-basic Copper Sulphate 2 lbs to 50 gallons of water.

Our Guarantee

We guarantee our plants to be first class in every particular when they leave here and will refill the order free of charge or refund the purchase price on any plants not entirely satisfactory, provided plants have not been delayed or damaged by transportation company and we are notified promptly.

We give no warranty, express or implied, as to description, quality, or productiveness of any plants we send out and will not in any way be responsible for more than the purchase price.

TOMATO PLANTS

READY FOR SHIPMENT MARCH 15 TO JUNE 15

Omega Brand Tomato Plants are grown in the open fields and make strong, stocky plants with well developed root systems. They are not frost-proof but are much hardier and stronger than plants grown in a greenhouse or under cover. All our Tomato Plants are grown from certified seed, inspected by the State Department of Entomology and planted on carefully selected land. A large percent planted on New Ground and Second Year Fields. These plants are properly irrigated when necessary under supervision of some of the most experienced field men in the plant industry.

EARLIANA, 60 Days—One of the earliest varieties grown, making large, well rounded fruit of deep scarlet red color.

JOHN BAER, 66 Days—Medium to large, round, scarlet-red fruit, smooth and firm. A good early variety.

BONNY BEST, 66 Days—A very popular early tomato for home and market. Scarlet-red fruit, flattened globe shape, vigorous grower with plenty of foliage.

PRITCHARD (SCARLET TOPPER), 70 Days—An ideal all-purpose tomato, wilt resistant, large producer of bright red globe shape, medium size and excellent quality.

STOKESDALE, 70 Days—A new variety developed by Francis C. Stokes. Early, heavy yielder, deep red, globe shape, gaining in popularity with commercial shippers and canners.

RUTGERS, 74 Days—A wilt resistant variety, vigorous grower with plenty of foliage, fruit globular shaped, bright red with heavy walls, small cells, a popular variety all over the United States.

MARGLOBE, 73 Days—This variety is recommended for its resistance to wilt and nail head rust. It is a good second early and continues to bear until frost.

MASTER MARGLOBE, 73 Days—The finest strain of Marglobe bred to produce heavy yields, perfectly shaped fruits.

GREATER INDIANA BALTIMORE, 78 Days—This variety is excellent for canning. Producing a large, solid, smooth fruit of bright red color and excellent quality.
